**Salvia argenta:** a biennial for sharply drained full sun and heat with outstanding large silver foliage

**Trycyrtis formanosa Gilt Edge:** lance leaves edged with gold, purple flowers.

**Veronica First Love:** pink, 24in.

## **Hardy Chrysanthemums**

This year we are offering Zone 4 mums from Minnesota. These are old-fashioned forms, including some quills and "football" types. They will not be tidy little cushions, but have a freer and in most cases, taller habit. In order for them to winter-over successfully, we recommend planting them by Labor Day in a well drained sunny area and mulching them with boughs. Or bring them inside in pots and winter in above-freezing conditions and plant in the spring so they get a full season to get established.

**Belle O' The Ball:** Purple 5 inch blooms, 18in.

**Homecoming:** Salmon pink transitions to a pale buff.

**Irish Linen:** Buff white 5 to 6 inch blooms, 24in.

**Maroon Pride:** Maroon red, 20in.

**Matchsticks:** Red Quill, 20in.

**Mellow Moon:** Pale Yellow 5 inch blooms, 20in.

**Pat Lehman:** Pink, 24-30in.

**Peach Centerpiece:** Quill blooms 4 inches across, 16in.

**Stadium Queen:** Large 6 to 7 inch blooms, red with gold reverse.

## **FRUIT AND VEG**

These are young plants we will be offering at very reasonable prices. Quantities this year are limited, but if there is a big interest, we will expand our offerings next year. We'd like you feedback on what kind of fruits you are interested in for the future

### **Blueberries:**

**Duke** (needs at least one other blueberry variety for a pollinator)

**Blue Ray** (needs at least one other blueberry variety for a pollinator)

### **Crocus Sativus: Saffron Crocus**

**Chicago Hardy Fig ( Zone 5):** Bring inside for the winter or flatten down and cover with tarp and mulch or hay bales. You will also need a rodent preventative. Fruits on new canes.

**Elderberry Adams** (native or Johns for pollination)

**Elderberry Johns** (needs Adams or native for pollination)

**Goji Berry Phoenix Tears** (self pollinating)

**Arctic Kiwi Anna** (needs male for pollination)

**Arctic Kiwi Clark**(male)

**Haskap Berry Indigo Treat** (needs another variety for pollination)

**Haskap Berry Tundra** (needs another variety for pollination)

**Rhubarb Victoria**

**Summer Raspberries:** A mix of hardy red varieties we find hardy, productive, and delicious.
